

Vital U is Vital Images' professional educational organization. We offer courses on the fundamentals of advanced imaging, clinical applications and technical administration. Because we value fostering partnerships with our customers, we tailor ongoing education programs for each customer's organization size, needs and desired outcomes. All of our courses are taught by Vital Images' clinical and technical experts.

Classroom Education

For uninterrupted learning in a hands-on classroom environment, sign up for a Vital U classroom course at our headquarters in Minneapolis, Minnesota or at a number of traveling classrooms around the U.S.

Vital U Webinars

Our live webinars offer lecture-style instruction on the use of clinical applications. Learn from guest physicians and Vital U instructors in an open forum where you can ask the experts.

eLearning

These resources are available online, exactly when and where you need them.

- Use our online videos to learn new features in advanced visualization software
- View recorded Vital U webinars

Accessing Education

When you purchase software from Vital, you receive education units per the terms of your purchase. Your Maintenance and Support agreement includes additional, automatically renewing education units. You may purchase more units any time you need them.

To register, contact the Vital U education coordinator at 952.487.9559.

“ The recent Vital U course I attended was outstanding. I greatly appreciate the depth of knowledge, teaching style, professionalism, friendliness and patience of the instructors. Thumbs up for a truly valuable educational experience that will enable me to offer enhanced CT and MRI services to my patients and their providers.”

Uri Vaisman, MD
Berlin Memorial Hospital
